

Original Gym Flooring: Batch #10201

Farmington School

Original Gym Flooring is one of our Single-Origin Batch products. In contrast to our line of Standard Products which blend material from multiple sources to ensure a look that is consistent and repeatable from order to order, our Single-Origin Batches can be traced to one specific source and are finite in quantity. These products have a distinct look and a unique story to tell.

Salvaged from the Boeckman Middle School in Farmington, MN, this gym floor's original black, red, orange and blue paint lines have been reshuffled into a confetti of colorful stripes and marks. Like most gym floors, the material is a high grade of maple with an amber finish. The original tongue and groove remains intact.

Source Location: Farmington, MN

Originally Farmington High School from 1974 to 2009, Boeckman's gymnasium saw over three decades of use by the Farmington Tigers. Farmington is an old community which was on the map before Minnesota was even a state. Interestingly enough, according to the town's website, it was named after our East Coast base of operations, Farmington, New York.

**Original Gym Flooring: Batch #10201
Farmington School—Farmington, MN**
