

# Exteriors

Our goal is to help you shine, ensuring your project goes smoothly from start to finish. By inventorying & milling our products in New York & Oregon, we can remove obstacles so you can hit tight schedules and budgets. Here is our promise:

- On time, your time, every time.
- We mill for precision, grade for quality, and kiln-dry for stability—assuring you a headache-free job site.
- Let us pre-finish your order and save you install time. We have standard and custom color options.
- If you have questions about delivery, acclimation, installing, or finishing—call us, we speak construction.
- We source and mill in-house giving us buying power and control; giving you competitive pricing.
- Your whole-project solution: With full in-house drafting, design, and custom woodworking should you need it.

Serving great clients across North America from OR & NY.

RECLAIMED AND SUSTAINABLY HARVESTED OPTIONS FIT FOR EXTERIOR USE

## AMERICAN PRAIRIE

Naturally Weathered Wood Siding

Our take on barn wood siding, sourced from agricultural fencing and other structures that have endured the elements, this mix of softwoods and hardwoods needs no additional finishing thanks to years of sun and weather.

**Options:**

Weathered Grey, Brown Board, Taphouse: 4–8" random width or single widths as specified. 2' to 12' random lengths.

Corral Board: 7" standard, other widths may be available upon request, 2' to 16' random lengths.

## FARMED BOARD

Crafted in the U.S.A. from domestic softwood lumber, Farmed Board has been carefully exposed to the natural elements, weathering gracefully over time. These boards have developed a distinct aged patina with surface colors that vary from graphite to silver grey. Best of all they are available in long lengths, making them a consistent option for siding applications.

## SHOU SUGI BAN

Modern take on a traditional Japanese charring

Our Shou Sugi Ban product is made using PEFC®-certified Larch, FSC®-Certified Douglas fir, and FSC®-Certified ACCOYA®, available in colors and a deep char. All Shou Sugi Ban options come in a shiplap profile with an exterior grade finished on the face and back burned to promote stability. *Shown in Larch. More colors in other species available online at [pioneermillworks.com/shou-sugi-ban](http://pioneermillworks.com/shou-sugi-ban)*

**Options:**

Larch: 5" face width, 8'–16' random lengths.

Douglas fir: 5" face width, 6'–16' random lengths.

Accoya: 5 1/4" or 7 1/4" as specified face width, 8'–16' random lengths.

## DECKING

Accoya® Color — Grey

## FSC® CERTIFIED ACCOYA®

50 YEAR WARRANTY

Accoya® is FSC-certified® and cradle-to-cradle certified making it a top choice for sustainability and material health. The rot and moisture resistance of this acetylated pine is due to the unique vinegar treatment it is given directly after harvest. This makes it extremely durable, rivaling tropical hardwoods for longevity, and it comes with a 50-year above-ground warranty.

## FSC® CERTIFIED DOUGLAS FIR

Douglas fir Siding & Shiplap is an FSC® chain-of-custody certified, and a Pacific Northwest harvested option for interior and exterior uses. The rot resistance of Douglas fir and small tight knots make it a favorite material choice for exterior applications. Our Douglas fir's signature vertical grain has been brushed once allowing our standard color finishes to shine.

## PEFC® CERTIFIED LARCH

Larch Siding & Shiplap is sustainably harvested domestically from small well-managed forests. The signature swirling grain and small tight knots of Larch brings a natural finish to vertical applications. The rot resistance of this underutilized species rivals that of Douglas fir, and it is locally grown in the Pacific Northwest, which makes it a great option for exterior or interior uses.
